

Plug. Click. Go.

ASTROS Conference

enables streamlined, high-quality BYOM experience for hybrid meetings.

Immersive Experience

Ensures a realistic, face-to-face meeting experience for remote participants.

Wireless Conference

Eliminates the need for cables in any of your meetings.

BYOM

Start a video meeting on Teams, Zoom, Meet, and other services using your own device.

ASTROS Conference

Become the Meeting Host Instantly with Just One Click

With ASTROS Conference, you can seamlessly redirect VC peripherals from another laptop to yours by simply clicking a button.

No app required

Share your screen or initiate wireless conferencing without the need for any software and driver installation.

No subscription fee

Access conference features and upgrade services at no additional cost.

No additional hardware

Streamlined setup with just **ASTROS Station** and **Pod**, without extra room tablet, hub, or dock.

All you need to transform your workplace
